

Eyal Nahum

UX Desinger

EXPERIENCE

UX Designer & Researcher

At Energy Team

Dec 2020 - Sep 2022

[Mil'jobs - Mobile only app](#)

A recruiting application for the Israeli army. Worked as a single UX Designer in a **Lean Design** process: research, design, test, and iterate. As a single UX/UI designer at this project I had to be very independent with my research and design, deliver in a tight schedule, and still preserve the necessary cooperation with the dev teams and stakeholders. I designed full, **pixel perfect UI** with an information structure that is based on my research, and fully **interactive prototypes** that were in use in the test stages.

[Zoharim 7.0 - Complex web system](#)

A Complex web system of Control and Command for Israeli Navy Ships, with many different users. Worked in a team, and after half a year I became the UX **team leader**. I was meeting users and potential users very regularly, doing **research** on them (observations, surveys, interviews, etc.) and applying **user-tests** on them with the frames and Interactive prototypes.

QA Engineer

At Korentec Technologies + SmartNPI

Oct 2018 - Feb 2020 (Korentec) & Jan 2023 - Mar 2023 (SmartNPI)

As a manual QA engineer I was composing test-cases and ran test-cases on a Control and Command web software, as well as writing the STP and STD files.

CIC Manager

Israeli Navy

2015-2018

Full mandatory combat service in Flotilla-3 of Israeli navy. My initial job was a Command & Control System operator, and I progressed in time to be a CIC manager. In 2016 I was the ship's excelling soldier.

COURSES I'VE TAKEN

- Introduce to UX by Tal Florentin (2020)
- Full UX course at "Bex Academy" (2021)
- Micro-copy course at "Nemala Studio" (Kinneret Ifrah) (2022)
- Udemy UX & Web Design Master Course: Strategy, Design, Development (2022)
- Udemy Adobe CC Masterclass: Photoshop, Illustrator, XD & InDesign* (taking at the moment)

In addition, I'm fully high school graduated with a major in Computer Science.

Hard Skills

Soft Skills

Work well in a team AND independently
Autodidact
Management skills
Pressure Handling
Credible
Problem-solving, Critical thinking,
Adaptability

MORE ABOUT ME

I'm a pleasant guy, with a positive attitude and a creative mind. Besides planning and making great products for users, I also play bass, hang with friends and play chess.

When I'm passionate about something - I'm all about it. I feel very satisfied when I know that I did my best - and that's what motivates me.
